# A WORD FROM THE DOCKMASTER

**H**urricane Season 2017 is almost upon us! We have the month of May to finalize our preparations so that we are ready for the June-November hurricane season. It is so much easier to undertake your preparations BEFORE any weather system starts to form. Check the conditions of your dock lines and the security of your cleats. Take a moment and write an inventory of all valuable non-removable/fixed items on your boat. Keep a copy of important documents on a location off of your vessel. Make sure that your insurance is current and that you have a copy of your policy readily accessible. (We need a copy of that policy in the Dockmaster's Office too!)

If you think that your slip and/or dock needs any specific attention, please let me know. We will be happy to check it out and make any necessary repairs. Marina Bay has been very fortunate to have had little to no hurricane related damage during the past twelve years. This is due to a number of factors, but one factor certainly is the preparation we undertake. Your assistance is vital to our preparation. ❖
