A WORD FROM THE DOCKMASTER

Many of you have noticed that we have undertaken work around the marina property in the past several months. We have replaced several docks and added several new finger piers. We have renovated and strengthened the west side sea wall. General painting and routine maintenance goes on every day. Please let us know if you notice any part of our physical property that is in need of attention. We count on you to be an additional set of eyes and ears. We will do our part to keep Marina Bay in good condition!

We appreciate each of you doing your part as well. Remember that absolutely no sanding, painting or fiberglass work may be done within the marina. Please be respectful of your neighbors as you wash or clean of your vessel. Lastly, please do not feed the ducks and do not encourage them to come onto the docks. It is not safe for the ducks, it is bad for the environment and (as you have all seen), it creates a mess.

Thank you for your business! Let me know if I can be of any assistance to you in 2017.

– John
