## ***Get a trainer workout "On Us"***

*One of the many great benefits to being here at the Marina Bay Resort is our amazing trainer Dereck.. stop by and see what he can do for you...*

### ***Fat Percentage Reduction Tip***

*The only time to really advocate long duration low intensity cardio, such as riding the bike for an hour at a steady rate, is to do so on an empty stomach in the morning. To shed some quick pounds, drink a glass of water after they wake up, sip some black coffee or green tea and keep your heart rate elevated at a moderate rate for 45-60 minutes. This will rev your metabolism up for the rest of the day and will help your body target fat stores for energy instead of any merely burning the food you may have consumed before working out.*

***Tennis at Marina Bay...It doesn't get much better than this!  
Now that the weather is cool take advantage of our courts.***
